A gunboat is a naval watercraft designed for the express purpose of carrying one or more guns to bombard coastal targets, as opposed to those military craft designed for naval warfare, or for ferrying troops or supplies.

**Gunboat - Wikipedia**

A gunship is a military aircraft armed with heavy guns, primarily intended for attacking ground targets.. In modern usage the term "gunship" refers to fixed-wing aircraft aircraft having laterally-mounted heavy armaments (i.e. firing to the side) to attack ground or sea targets. These gunships were configured to circle the target instead of performing strafing runs.
