Glove Use Information Leaflet - World Health Organization

A glove (Middle English from Old English glof) is a garment covering the whole hand. Gloves have separate sheaths or openings for each finger and the thumb; if there is an opening but no (or a short) covering sheath for each finger they are called fingerless gloves. Fingerless gloves having one large opening rather than individual openings for each finger are sometimes called gauntlets, though ...

HAND HYGIENE: WHY, HOW & WHEN? WHO acknowledges the H³pitaux Universitaires de Gen³ve (HUG), in particular the members of the Infection Control Programme, for their active participation in developing this material.

Hand Hygiene: Why, How & When? - WHO | World Health

A baseball glove or mitt is a large leather glove worn by baseball players of the defending team, which assists players in catching and fielding balls hit by a batter or thrown by a teammate.. By convention, the glove is described by the handedness of the intended wearer, rather than the hand on which the glove is worn: a glove that fits on the left hand is used by a right-handed thrower is ...
