Bulletin of the World Health Organization | November 2004, 82 (11) 867 Abstract This paper explores the debate and initiatives concerning the use of information technology (IT) in primary health care in

Health information technology in primary health care in

The Constitution of India makes healthcare in India the responsibility of the state governments, rather than the central federal government. It makes every state responsible for "raising the level of nutrition and the standard of living of its people and the improvement of public health as among its primary duties".. The National Health Policy was endorsed by the Parliament of India in 1983 ...
