Hearing loss, also known as hearing impairment, is a partial or total inability to hear. A deaf person has little to no hearing. Hearing loss may occur in one or both ears. In children, hearing problems can affect the ability to learn spoken language and in adults it can create difficulties with social interaction and at work. In some people, particularly older people, hearing loss can result ...

GÃ¶del, in his usual manner, had read extensively in preparing for the hearing. In the course of his studies, GÃ¶del decided that he had discovered a flaw in the U.S. Constitution -- a contradiction which would allow the U.S. to be turned into a dictatorship. GÃ¶del, usually quite reticent, seemed to feel a need to make this known.

Hearing loss can affect a child's ability to develop communication, language, and social skills. The earlier children with hearing loss start getting services, the more likely they are to reach their full potential. If you are a parent and you suspect your child has hearing loss, trust your instincts and speak with your child's doctor. Don't wait!
