Hellenistic sculpture moved away from the harmonic balance and idealized forms of the classical age. Instead of the serene face and perfect body of an idealized man or woman, Hellenistic sculptors created more natural works. They felt free to explore new subjects, carving ordinary people such as an old, wrinkled peasant woman. By 150 B.

It's easiest to understand what Hellenistic sculpture looks like by comparing it to the other two style periods of classical antiquity: Archaic and Classical. The three are chronological (Hellenistic is the last), and seeing the progression makes it easier to grasp the developments, and what defines each era.

### **What are some characteristics of Hellenistic sculptures**

Hellenistic sculpture, often of a very high quality, is notable for its variety. Alexander's *pothos*, or yearning for something unattained, was a mood that became expressed in the art.
