A final way that humans can have a positive impact on the desert biome is by gaining knowledge about the biome. If a human has more information about how gentle this ecosystem is and how their actions may affect this desert biome and all of its intricate interactions, then they are less likely to purposefully harm this biome.

Human Impact on Biological Soil Crusts

Human Impact On The Desert Biome. Humans have impacted the desert biome in that they have polluted the atmosphere. This affects all biomes, including the desert. People have also drilled for many fossil fuels, such as oil, in the desert. This causes pollution and is harmful to the animals living near the oil wells.
