### **ARaymond Tinnerman Industrial (North America)**

The Industrial Revolution was the transition to new manufacturing processes in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power, the development of machine tools and the rise of the factory system.

The militaryâ€“industrial complex (MIC) is an informal alliance between a nation's military and the defense industry that supplies it, seen together as a vested interest which influences public policy. A driving factor behind this relationship between the government and defense-minded corporations is that both sides benefitâ€”one side from obtaining war weapons, and the other from being paid ...
