informal provider and 2) study the determinants of behavior as an informal provider. Because of the fragmented legal landscape towards practicing informal providers, they are not beholden to the same regulatory mechanisms as are formal providers.

### **INFORMAL PROVIDERS - India Health Policy Initiative**

The Medical Termination of Pregnancy Act was passed in 1971 to circumvent the criminality clause around abortion. Yet the law continues to render invisible women's right to choose. Legal procedures have often hindered in permitting abortion, resulting in the death of a mother or the foetus.

### **Experiencing abortion rights in India through issues of**

Medical Students for Choice (MSFC) was established in 1993 by students working with NAF who were concerned about the national shortage of abortion providers, the lack of abortion education in medical schools and residency programs, and escalating violence against providers.

### **Educational Resources - National Abortion Federation**

Little is known about the prevalence, safety, or efficacy of informal sector abortion, women's experiences with abortion outside the formal health system, or the impact of informal sector abortion on women's health in South Africa [9, 12, 13]. We also know very little about the mechanisms through which women learn about informal sector abortion services in South Africa.

### **Women's experiences seeking informal sector abortion**

According to a national survey of abortion providers, 23% offer abortions after 20 weeks' gestation, and 11% do so at 24 weeks.<sup>5</sup> Because fewer providers offer abortion care after the first trimester, women must travel longer distances to obtain later abortions.

### **Denial of Abortion Because of Provider Gestational Age**

PAC providers commonly believe that abortion is a sin, that once a woman has had one abortion she will make it a habit, and associate contraceptive ... estimated 60% of the population live in informal settlements and about 44% are younger than 15 years. The contraceptive prevalence rate is estimated to 27%, with
