Human Resources Learning & Training Resources

Lecture Notes on Informatikon Resources Part I 5 1 Introduction to Data Modeling An important aspect of most every business is record keeping. In our information society, this has become an important aspect of business, and much of the world's computing power is dedicated to maintaining and using databases.

Lecture Notes on INFORMATION RESOURCES

managing its information resources. The policy directive details the expanded statutory responsibilities for information resources management (IRM) and information technology (IT) and applies to all AF information resources, information processes, information integration and national security systems (NSS).

Information Resources Management

organizations. Information sources can be in print, non-print and electronic media or format. Types of Information Sources Information can come from virtually anywhere: personal experiences, books, articles, expert opinions, encyclopedias, the Web. The type of information needed will change depending on its application.

Module One - Information sources

The Evolution of Information Resource Management Eileen M. Trauth Northeastern University, College of Business Administration, Boston, MA 02115, USA From the beginning of its use, the term information re-

Historical resources summarize and synthesize established knowledge, rather than keeping up with the newest findings. The important thing is that reference resources usually tell you how old their information is. Type of Information: Summary and synthesis of what is known about a topic. Materials to be referred to; for example, facts and figures, dates, names, measurements, statistics, quotations, instructions, equations, formulae, definitions, explanations, charts, graphs, diagrams, maps.
