The main form of sensory integration therapy is a type of occupational therapy that places a child in a room specifically designed to stimulate and challenge all of the senses.. During the session, the therapist works closely with the child to provide a level of sensory stimulation that the child can cope with, and encourage movement within the room.

Green Growth and Buildings Sector in India 2 requisites of green-growth development such as balanced regional development, improved urban planning, and development in other sectors of the economy are not covered here.

## **Green Growth and Buildings Sector in India**

Mountbatten believed that securing the states' accession to India was crucial to reaching a negotiated settlement with the Congress for the transfer of power. As a relative of the British King, he was trusted by most of the princes and was a personal friend of many, especially the Nawab of Bhopal, Hamidullah Khan.
