Artificial Intelligent Systems - Tutorials Point

intelligent systems often creates the expectation that a more perfect diagnoses or solution is forthcoming from physicians, but that obscures the probabilistic mechanisms that generate possible diagnoses or solutions, rather than precise and perfect knowledge.

Understanding Intelligent Systems - Data & Society

In the language of cognitive science, perceptual intelligence is the ability to solve the frame problem¹: it is being able to classify the current situation, so that you know what variables are important, and thus can take appropriate action.
