interaction and correlation between pdf

Introduction. An interaction variable or interaction feature is a variable constructed from an original set of variables to try to represent either all of the interaction present or some part of it. In exploratory statistical analyses it is common to use products of original variables as the basis of testing whether interaction is present with the possibility of substituting other more ...

Interaction (statistics) - Wikipedia

In sociology, social interaction is a dynamic, changing sequence of social actions between individuals (or groups) who modify their actions and reactions due to the actions by their interaction partner(s). Social interactions can be differentiated into accidental, repeated, regular, and regulated. Social interactions form the basis of social relations.

Facebook, the world's largest online social network, allows users to "like" the content they view with the click of a button. The simplicity of liking posted material has made doing so extraordinarily popular, with nearly 4.5 billion likes generated daily and half of all users liking at least one post they view every day (Pew Research Center, 2014).

How many likes did I get?: Purpose moderates links between
