

international law theory and pdf

International law is the set of rules generally regarded and accepted in relations between nations. It serves as a framework for the practice of stable and organized international relations. International law differs from state-based legal systems in that it is primarily applicable to countries rather than to private citizens. National law may become international law when treaties permit ...

International law - Wikipedia

This book is a good read for anyone interested in international politics, or how the world works (both theory and application). The Law of Nations deals largely with political philosophy and international relations, and has been said to have modernized the entire theory and practice of international law.
