Running is a method of terrestrial locomotion allowing humans and other animals to move rapidly on foot. Running is a type of gait characterized by an aerial phase in which all feet are above the ground (though there are exceptions). This is in contrast to walking, where one foot is always in contact with the ground, the legs are kept mostly straight and the center of gravity vaults over the ...

What's making my child's skin so dry? Babies and children can get dry skin just like adults do. In fact, because young skin is more delicate, it's more susceptible to becoming dry. Cold, dry outdoor air and indoor heating can rob skin of its natural moisture in the winter. And if your child is prone ...
