Time geography or time-space geography is an evolving transdisciplinary perspective on spatial and temporal processes and events such as social interaction, ecological interaction, social and environmental change, and biographies of individuals. Time geography "is not a subject area per se", but rather an integrative ontological framework and visual language in which space and time are basic ...

Five Themes of Geography is an educational tool for teaching geography. Adopted in 1984 by the Association of American Geographers, those five themes were published in the NCGE/AAG publication Guidelines for Geographic Education, Elementary, and Secondary Schools. Most American geography and social studies classrooms have adopted the five themes in teaching practices.
