Mitochondria are often referred to as the powerhouse for their role in generating the energy supply for cells. However they have lacked the spotlight for their important role in a variety of other biological functions. Researchers at the United Mitochondrial Disease Foundation have learned that only 3% of the genetic material contained in a single mitochondrion is designed to produce cellular ...

While I was in South Africa, at the Professor Tim Noakes hearing, Familial Hypercholesterolemia (FH) came up both home and away. Back in the UK, a study was published by the Queen Mary University of London arguing that public health agencies should routinely test the cholesterol levels of infants (aged one to two years) alongside the administration of childhood vaccinations.

When it hits the fan America's population centers will explode in violence, looting, and total breakdown of law and order. It's a theory put forth by numerous survival and relocation specialists, and one that makes complete sense if you consider what happens in a truly serious collapse-like scenario.
