Organicism is the philosophical perspective which views the universe and its parts as organic wholes and "either by analogy or literally" as living organisms. It can be synonymous with holism. Organicism is an important tradition within the history of natural philosophy where it has remained as a vital current alongside reductionism and mechanism, the approaches that have dominated ...

Organic architecture is a philosophy of architecture which promotes harmony between human habitation and the natural world. This is achieved through design approaches that aim to be sympathetic and well-integrated with a site, so buildings, furnishings, and surroundings become part of a unified, interrelated composition.
