Northumberland Life is a free service supported by Local Government, Business and Community organisations to allow groups serving the community to take advantage of the benefits of the Internet, without the high cost and need to understand website design. More information is available in our Help Area

Holy Island Crossing Times - Lindisfarne Holy Island Tide

Red tide is a common name for algae blooms, which are large concentrations of aquatic microorganisms (protozoans or unicellular algae such as dinoflagellates and diatoms). The upwelling of nutrients from the sea floor, often following massive storms, provides for the algae and triggers bloom events. Harmful algal blooms can occur worldwide, and natural cycles can vary regionally.
