Setting boundaries is an important part of establishing one's identity, as well as being crucial for one's mental health and well-being. There are different types of boundaries, from physical boundaries to emotional boundaries, and there are also different levels of boundaries, from loose to rigid, with healthy boundaries falling somewhere in between.

Health, as defined by the World Health Organization (WHO), is "a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity." This definition has been subject to controversy, as it may have limited value for implementation. Health may be defined as the ability to adapt and manage physical, mental and social challenges throughout life.
