2 9.1 Leadership theory Leadership is a process by which a person influences others to accomplish aims or objectives, using their capacity to motivate, inspire and influence others.

Chapter 9 Leadership - acornlive.com

Decision theory (or the theory of choice) is the study of the reasoning underlying an agent's choices. Decision theory can be broken into two branches: normative decision theory, which gives advice on how to make the best decisions, given a set of uncertain beliefs and a set of values; and descriptive decision theory, which analyzes how existing, possibly irrational agents actually make decisions.

Decision theory - Wikipedia

The buying decision process is the decision-making process used by consumers regarding market transactions before, during, and after the purchase of a good or service. It can be seen as a particular form of a cost-benefit analysis in the presence of multiple alternatives.. Common examples include shopping and deciding what to eat. Decision-making is a psychological construct.

Buyer decision process - Wikipedia

Decision making under risk is presented in the context of decision analysis using different decision criteria for public and private decisions based on decision criteria, type, and quality of available information together with risk assessment.
