Economic growth is the increase in the inflation-adjusted market value of the goods and services produced by an economy over time. It is conventionally measured as the percent rate of increase in real gross domestic product, or real GDP.. Growth is usually calculated in real terms - i.e., inflation-adjusted terms - to eliminate the distorting effect of inflation on the price of goods produced.

Consider this section Part II of Plantation Community (the previous section in this Theme), because African Americans' spiritual beliefs and practices were a core element of the worlds they created for themselves within the strictures of the white man's plantation.

Slave Religion, African American Community during Slavery

Religion, after all, is a powerful constituent of cultural norms and values, and because it addresses the most profound existential issues of human life (e.g., freedom and inevitability, fear and faith, security and insecurity, right and wrong, sacred and profane), religion is deeply implicated in individual and social conceptions of peace.
