The importance of leadership and management for education

Educational management is a field of study and practice concerned with the operation of educational organizations. The present author has argued consistently (Bush, 1986; Bush, 1995; Bush, 1999; Bush, 2003) that educational management has to be centrally concerned with the purpose or aims of education.

Theories of Educational Management - ERIC

Public policy and education Management of educational organizations Evaluation of educational systems Licensure. Education managers who work in school administration, usually as principals, are required to be licensed in most states, if they work at public schools. Requirements vary, but they often include a master's degree and additional training.
