Four Strategies for Managing Change - Fred Nickols' Web Site

There is no single or simple solution to the obesity epidemic. Itâ€™s a complex problem and there has to be a multifaceted approach. Policy makers, state and local organizations, business and community leaders, school, childcare and healthcare professionals, and individuals must work together to create an environment that supports a healthy lifestyle.

A marketing information system (MKIS) is a management information system (MIS) designed to support marketing decision making. Jobber (2007) defines it as a "system in which marketing data is formally gathered, stored, analysed and distributed to managers in accordance with their informational needs on a regular basis." In addition, the online business dictionary defines Marketing Information ...

1. Introduction. One of the largest risks to people living in urban areas in the developing world is a lack of improved water, sanitation and hygiene (WASH) provision. Access to water and sanitation is an important factor in determining social vulnerability to natural hazards, not only for meeting immediate needs, but also for the wider application of relevant disaster prevention.
