Evidence-based Classroom Behaviour Management Strategies

What is Classroom Management? Classroom management refers to the wide variety of skills and techniques that teachers use to keep students organized, orderly, focused, attentive, on task, and academically productive during a class Since there are differences in the ages and developmental stages of children versus adolescents, my initial thought was that classroom management should be different.

Adolescent Classroom Management: Is It Different? - Prezi

Adolescents and younger children with ME/CFS may experience problems with attention, response . speed,

information processing speed, and delayed recall of verbal and visual information. For instance, it may be challenging for adolescents to take notes and listen to their teacher at the same time.
