The following guidance is based on the best available evidence. The full guideline gives details of the methods and the evidence used to develop the guidance. The wording used in the recommendations in this guideline (for example, words such as 'offer' and 'consider') denotes the certainty with ...

### **Challenging behaviour and learning disabilities**

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

### **Changing behaviour: A public policy perspective**

Behavior (American English) or behaviour (Commonwealth English) is the range of actions and mannerisms made by individuals, organisms, systems, or artificial entities in conjunction with themselves or their environment, which includes the other systems or organisms around as well as the (inanimate) physical environment. It is the response of the system or organism to various stimuli or inputs ...
