IMAPS is bringing together the entire supply chain for the medical industry with the Workshop on Advanced Packaging for Medical Microelectronics. The workshop will bring together technologists in semiconductor packaging with life science experts interested in packaging solutions for medical devices and electronics. The workshop will provide a venue for papers, poster sessions, and discussions ...

IMAPS - 2019 ATW on Advanced Packaging for Medical

The era of smart manufacturing and Industry 4.0 promises significant opportunities to reduce cost, boost productivity and improve quality in microelectronics manufacturing. But it also presents the industry with new, unique challenges.

Self-healing materials are artificial or synthetically-created substances which have the built-in ability to automatically repair damage to themselves without any external diagnosis of the problem or human intervention. Generally, materials will degrade over time due to fatigue, environmental conditions, or damage incurred during operation. Cracks and other types of damage on a microscopic ...
