THOMSON'S ATOMIC MODEL Using what he had discovered, Thomson predicted what an atom should look like. These are the key points to Thomson's Atomic Model: 1. Because of its design this model is known as the plum pudding model 2. Each atom is a sphere filled with positively charged "fluid". This resembles the sticky jam part of a pudding. 3.

The third model for teaching history is the model best suited for contributing to students' wisdom. Our role, therefore, is to ensure we are using the third model: focusing our instruction on core concepts and helping students to apply them not only to historical events but also to their daily lives.
