Brachypelma tarantulas are very common in the pet trade, and are highly prized because of their docile nature and ease of care. They live in burrows, and collection methods are very destructive.

### **Which arthropod pets are good for beginners? | Ask an**

A: Bed bugs don't live on pets or spend as much time on your pet as the more common pests (such as fleas, ticks, lice and mites), but they can bite your pets. We also know that bed bugs are very efficient hitchhikers

and can be transported to your home via luggage, clothing, bedding, furniture, etc., so it's possible that bed bugs could also ...
