a previous blended multiple exposure image and then add to this more frames to push creativity even further. Canon have really tried to give us as much scope as possible.

Multiple Exposure Photography - CHRIS FRIEL

Manual winding cameras with a multiple exposure feature can be set to double-expose after making the first exposure. Since shooting multiple exposures will expose the same frame multiple times, negative exposure compensation must first be set to avoid overexposure. For example, to expose the frame twice with correct exposure, a +1 EV compensation have to be done, and +2 EV for exposing four times.
