We would like to welcome all of you to the Workshop on Topological Phase Transitions and New Developments! In recent years, ideas from topology, a branch of mathematics dealing with the properties of space that are preserved under continuous deforming such as stretching and bending, have rapidly infiltrated physics and drive both theoretical and experimental efforts into the study of new exotic materials.

2 TOPOLOGY: NOTES AND PROBLEMS An open ball in a metric space  $(X;d)$  is given by  $B_d(x;R) := \{y \in X : d(y;x) < R\}$ . Exercise 1.3 : Let  $(X;d)$  be your favourite metric  $(X;d)$ . How does open ball in  $(X;d)$  look like ? Exercise 1.4 : Visualize the open ball  $B_d(f;R)$  in  $(C[0;1];d_1)$ ; where  $f$  is the identity function.

set topology, which is concerned with the more analytical and aspects of the theory. Part II is an introduction to algebraic topology, which associates algebraic structures such as groups to topological spaces. We will follow Munkres for the whole course, with some occasional added topics or different perspectives.

### **Topology - Harvard Department of Mathematics**

Topology has been widely utilized within the learn of chemically associated and knotted buildings, and likewise within the research of many biologically major molecules corresponding to proteins and DNA. those are the topics which are addressed during this quantity of the Mathematical Chemistry sequence.

topology, knot theory, and combinatorial topology could all draw new students into mathematics. The inquiry-based topology course described below utilizes collaboration and independent discovery rather than lecturing as the primary pedagogical technique.

### **Topology - Mathematical Association of America**

An y topology weaker than a separable topology is also separable, since an y dense set in a stronger topology is also dense in a weaker one. E X E R C I S E 1.1.2 .

### **BASIC TOPOLOGY - Pennsylvania State University**

In the mathematical field of topology, a development is a countable collection of open covers of a topological space that satisfies certain separation axioms. Let  $X$  be a topological space.
