The State of World Fisheries and Aquaculture 2016

The FAO Fisheries and Aquaculture Department has created a new Web site containing all FAO Aquaculture information products from 2006 to date. This Web site is new as of February 2013 and will be regularly updated. A key role of FAO as a knowledge organization is to provide advice and information to ...

FAO Fisheries & Aquaculture - Aquaculture Information Products

This section introduces a range of climate-smart agriculture (CSA) practices and technologies within seven entry points for CSA; soil management, crop management, water management, livestock management, forestry, fisheries and aquaculture, and energy management. Practices are understood broadly as ways of doing things, for example, precision farming, tillage, and fertilization; these are all ...

Practices | Climate-Smart Agriculture Guide

Fish farming or pisciculture involves raising fish commercially in tanks or enclosures such as fish ponds, usually for food. It is the principal form of aquaculture, while other methods may fall under mariculture. A facility that releases juvenile fish into the wild for recreational fishing or to supplement a species' natural numbers is generally referred to as a fish hatchery.
