India's Nuclear Weapons Program. The Beginning: 1944-1960. Last changed 30 March 2001. Historical Background. The end of World War II marked a revolution in world affairs - the recasting of nations and relations between nations, and the emergence of a new technology which fundamentally changed the role of warfare.

India's Nuclear Weapons Program - The Beginning: 1944-1960

Pakistan's Nuclear Weapons: Proliferation and Security Issues Congressional Research Service 3 Nuclear Weapons6 Pakistan's nuclear energy program dates back to the 1950s, but it was the loss of East Pakistan

Pakistan's Nuclear Weapons: Proliferation and Security Issues

the prohibition on member nations to deal in nuclear commerce with India. The inclusion of India into the global nuclear energy order has, however, made it further necessary for the country to make structural and procedural modifications in its nuclear regulatory framework by bringing them in conformity with international norms and practices.

Development of Nuclear Energy Sector in India

nuclear facilities into civilian and military categories and place the former under international safeguards. In return the US would resume full civil nuclear energy cooperation with India, work with the US Congress to adjust US laws to enable such cooperation and persuade allies in the Nuclear Suppliers' Group to lift their sanctions.

The India-US Nuclear Deal and its Implications for Indian

Nuclear bombs dropped on cities and industrial areas in a fight between India and Pakistan would start firestorms that would put massive amounts of smoke into the upper atmosphere. The particles would remain there for years, blocking the sun, making the earth's surface cold, dark and dry. Agricultural collapse and

Local Nuclear War, Global Suffering - Alan Robock

India's Supreme Court began its own inquiry into the health crisis at the mines in 1998, in response to a petition filed by a pro-nuclear lawyer from Delhi who was upset by a news magazine's photos of children with severe birth defects from villages near tailings ponds.

India's nuclear industry pours its wastes into a river of

Radioactive steam was released into the atmosphere, and highly radioactive water spilled into the ocean through utility trenches. Some immediate injuries resulted. 117 workers received committed effective doses above 100 mSv, and 6 workers received doses above the emergency dose limit of 250 mSv.

List of nuclear power accidents by country - Wikipedia

all, the costly failures of the Indian nuclear energy enterprise, and the possible harm for the people of India from a continued expansion of the nuclear complex. Misplaced U.S. Goals The nuclear deal has to be seen in the context of efforts over the last 50 years to incorporate India into U.S. strategy in Asia.

Deal With India Behind the U.S. Nuclear - Princeton University

Integrate India into the global effort to stop nuclear proliferation.² The majority of Congressional hearings, government statements, and scholastic debates about this bill have focused on the first and last goal.

U.S.-India Nuclear Cooperation Act

India successfully test-fired the nuclear-capable Shourya, a short-range ballistic missile (SRBM) with a range of up to 700km. This is the third successful test of the Shourya since 2008, and production of the missile for induction into the Indian Army is expected to begin shortly.

India Missile Chronology - nti.org

India needs. Indeed, it is not clear how missile defenses will fit into the existing Indian nuclear doctrine. India's official nuclear doctrine has made no mention of a missile defence system, and it is unlikely that the war-fighting orientation of missile defenses will sit well with the political/deterrence driven sentiment that dominates

Rajesh Rajagopalan - MOD

In October 2010, India drew up a plan to reach a nuclear power capacity of 63 GW in 2032, but after the 2011 Fukushima nuclear disaster in Japan people around proposed Indian nuclear power plant sites have launched protests, raising questions about atomic energy as a clean and safe alternative to fossil fuels.
