Objective-C is a general-purpose, object-oriented programming language that adds Smalltalk-style messaging to the C programming language. It was the main programming language used by Apple for the macOS and iOS operating systems, and their respective application programming interfaces (APIs) Cocoa and Cocoa Touch prior to the introduction of Swift. The pronoun you is the second-person personal pronoun, both singular and plural, and both nominative and oblique case in Modern English. The oblique (objective) form, you, functioned previously in the roles of both accusative and dative, as well as all instances following a preposition. The possessive forms of you are your (used before a noun) and yours (used in place of a noun).
