Dentistry is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity, commonly in the dentition but also the oral mucosa, and of adjacent and related structures and tissues, particularly in the maxillofacial (jaw and facial) area. Although primarily associated with teeth among the general public, the field ...

Urologists are bound by national and, increasingly, international laws that govern treatment options and patient care. The EAU brings together the voices of medical professionals, researchers, innovators and patients on a European platform to keep urological topics on the agendas of the authorities.

Urinary tract infections (UTIs) are most often caused by bacteria (germs) that get into the bladder, which is part of the urinary tract. UTIs are also called bladder infections.

Urinary tract infections | Womenshealth.gov

Vasectomy is a surgical procedure for male sterilization or permanent contraception. During the procedure, the male vas deferens are cut and tied or sealed so as to prevent sperm from entering into the urethra and thereby prevent fertilization of a female through sexual intercourse. Vasectomies are usually performed in a physician's office, medical clinic, or, when performed on an animal, in a ...
