1. Introduction. Population aging is a global issue. One concern is a shortage of hospital beds, making it necessary to provide more complex care to the elderly with chronic or comorbid health conditions while they are living at home. At the same time, an aging population also reduces the availability of family caregivers.

Altruism is the principle and moral practice of concern for happiness of other human beings and/or animals, resulting in a quality of life both material and spiritual. It is a traditional virtue in many cultures and a core aspect of various religious traditions and secular worldviews, though the concept of "others" toward whom concern should be directed can vary among cultures and religions.
