If-Then-Else Conditionals in Regular Expressions. A special construct (?ifthen|else) allows you to create conditional regular expressions. If the if part evaluates to true, then the regex engine will attempt to match the then part. Otherwise, the else part is attempted instead. The syntax consists of a pair of parentheses. The opening bracket must be followed by a question mark, immediately ...

Conditional exercise (first / second / third conditionals)

A counterfactual conditional (abbreviated CF), is a conditional containing an if-clause which is contrary to fact. The term "counterfactual conditional" was coined by Nelson Goodman in 1947, extending Roderick Chisholm's (1946) notion of a "contrary-to-fact conditional". The study of counterfactual speculation has increasingly engaged the interest of scholars in a wide range of domains such as ...

Conditionals | English for Uni - University of Adelaide

In computer science, conditional statements, conditional expressions and conditional constructs are features of a programming language, which perform different computations or actions depending on whether a programmer-specified boolean condition evaluates to true or false. Apart from the case of branch predication, this is always achieved by selectively altering the control flow based on some ...

The line bar = foo does not copy the contents of the variable, only its "object reference". To understand what is going on here, we need to know how lists are stored in the computer's memory. In 4.1, we see that a list foo is a reference to an object stored at location 3133 (which is itself a series of pointers to other locations holding strings). When we assign bar = foo, it is just the ...

Chapter 1 Introduction 1.1 Overview ¶ Often times the initial form of your data is not the way you want it for analysis. The reasons for this could be many. For example, A researcher might choose to have data entered in a format that is easy for typists (to reduce data-entry errors) but which differs from the form needed for analysis.
