2 Agricultural Waste Management The next step is to develop an action plan to address identified areas of concern. Farmers need to analyze their situation and decide what can be done and when.

Best Management Practices: Agricultural Waste Management

As the market-leading textbook on the subject, Project Management: The Managerial Process is distinguished by its balanced treatment of both the technical and behavioral issues in project management as well as by its coverage of a broad range of industries to which project management principles can be applied. It focuses on how project management is integral to the organization as a whole.

Project Management: The Managerial Process (Mcgraw-hill)

Operations management, with its widened scope, is responsible for the management of productive systems, that is, it is responsible for systems which either create goods or private service or both.
