In computing, floating point operations per second (FLOPS, flops or flop/s) is a measure of computer performance, useful in fields of scientific computations that require floating-point calculations. For such cases it is a more accurate measure than measuring instructions per second.. The similar term FLOP is often used for floating-point operation, for example as a unit of counting floating ...

Business continuity statistics: where myth meets fact Mel Gosling and Andrew Hiles explore the roots of various often quoted business continuity statistics.

Business continuity statistics: where myth meets fact

An act making appropriations for the support of the government of the State of California and for several public purposes in accordance with the provisions of Section 12 of Article IV of the Constitution of the State of California, relating to the state budget, to take effect immediately, budget bill.

Bill Text - AB-93 Budget Act of 2015. - California

Calculated on the basis of these mid-points, approximately 30 percent of the war's fatalities were noncombatant civilians. These are "working" estimates in the sense that they are based on a body of evidence (including operational statistics) that will change with the release or discovery of new information.
