Ordered arrays of polymeric nanopores by using inverse nanostructured PTFE ... on the preparation of ordered nanostructures made up of PTFE [30-32]. In this sense, we show that the procedure used here is highly efficient for preparing ordered PTFE nanostructures from melts.

Ordered arrays of polymeric nanopores by using inverse

Intermediate Designed Block Copolymers for Ordered Polymeric Nanostructures 53 Scheme 9 and final products of the synthetic reaction schemes were analyzed by SEC, using RI and UV detection, to determine sample homogeneity and molecular-weight distributions, in tetrahydrofuran.

Designed Block Copolymers for Ordered Polymeric

Note: Citations are based on reference standards. However, formatting rules can vary widely between applications and fields of interest or study. The specific requirements or preferences of your reviewing publisher, classroom teacher, institution or organization should be applied.

Ordered Polymeric Nanostructures at Surfaces - worldcat.org

polymer influence the micro- and nanostructures fabricated. Results show that free-standing micropillars can be produced using silicon template with a pore depth less than about 15 Åm.
