I already printed it as a PDF so I can print it out later if I get some black ink in time. But can anyone think of a creative way to tell the printer / printer driver / PDF software (Foxit) that it should replace all black pixels with e.g. very dark blue pixels so that I can at least print it out so that the barcode on the page can be scanned?

## **How can I print out a PDF substituting pixels for blue pixels?**
