8.3 understand how communication skills affect assessment of, and engagement with, service users and how the means of communication should be modified to address and take account

### **Paramedics**

A paramedic is a healthcare professional who responds to medical emergencies outside of a hospital. Paramedics mainly work as part of emergency medical services (EMS), most often in ambulances. The scope of practice of a paramedic varies among countries, but generally includes autonomous decision making around the emergency care of patients.

### **Paramedic - Wikipedia**

A paramedic in Australia is a health care professional who responds to and treats all types of medical and trauma emergencies outside of a hospital setting before and during transportation to an appropriate medical facility. Paramedics also work in the inter-facility transport environment where a paramedic will continue or upgrade medical care to a higher level while transporting a patient ...
