Pediatrics (also spelled paediatrics or pÃdiatrics) is the branch of medicine that involves the medical care of infants, children, and adolescents. The American Academy of Pediatrics recommends people be under pediatric care up to the age of 21. A medical doctor who specializes in this area is known as a pediatrician, or paediatrician. The word pediatrics and its cognates mean "healer of ...

Saskatchewanâ€™s pediatric intensive care unit provides innovative and sophisticated life sustaining therapy for all critically ill children in the province.

## **Pediatrics - College of Medicine - University of Saskatchewan**

Parenteral nutrition (PN) is a "life-saving" therapy for patients unable to ingest or absorb oral or enterally delivered nutrients for a significant period. Main indications to pediatric PN are summarized in Table 1.

## **Pediatric parenteral nutrition-associated liver disease**

A neonatal intensive care unit (NICU), also known as an intensive care nursery (ICN), is an intensive care unit specializing in the care of ill or premature newborn infants. Neonatal refers to the first 28 days of life. Neonatal care, as known as specialized nurseries or intensive care, has been around since the 1960s.
