long-term positive effects of similarly severe life events, such as cancer, bereavement, and HIV-infection, to identify the factors and processes that appear to contribute to resilience and growth.

From Vulnerability to Growth: Positive and Negative

support when they need it. In order to be successful in establishing positive relationships you will need to assist in providing a positive environment for the home you work in. This means being part of a "team" with both your co-workers and the people who live in the home. Behavior can be "imitated".

Positive Approaches to Challenging Behaviors, Non-aversive

For example, people with high levels of positive automatic thoughts are likely to respond to stress by feeling that their lives are more meaningful, while people with low levels of positive automatic thoughts are likely to respond to stress by feeling that their lives are less meaningful (Boyras & Lightsey, 2012).

Challenging Negative Automatic Thoughts: Examples

Why You Should Respond to Positive Reviews. Positive reviews show you who your cheerleaders are. These are the promoters of your business "the people who rave about your company and want to tell their friends about it. Without these positive reviews, your professional business can be drowned by any negative reviews that come up. After you receive new positive reviews, phrase your responses to hype up your cheerleaders even more and encourage them to be your own special army of free-marketing.
