Privacy Enhancing Technologies | Springer for Research

One promising technology for preserving privacy is anonymity (Goldschlag et al., 1996; Reiter and Rubin, 1998; Dingledine et al., 2004), which provides data minimisation and user identity protection, aiming at preserving privacy at different levels.

Privacy Enhancing Technologies: A Review - HP Labs

The papers - both from academia and industry - cover design and realization of privacy services for the internet and other communication networks and present novel research on all theoretical and practical aspects of privacy technologies, as well as experimental studies of fielded systems.

Privacy Enhancing Technologies | SpringerLink

privacy-enhancing technologies for the Internet, as well as motivation and challenges for future work in this field. 1 Introduction Recently the Internet has seen tremendous growth, with the ranks of new users swelling at ever-increasing rates. This expansion has catapulted it from the realm of

Privacy-enhancing technologies for the Internet

PDF document, 1.14 MB This document provides recommendations on how to build and maintain an online community for PETs maturity assessments, which is assisted by ENISA's tool. The presented community development approach seeks to guide developers and to empower individuals and groups of people with the set of skills they need to actively participate in the PETs assessments process.
