### **Introductory Psychology Chapter 4: Sensation & Perception**

Different researches in the fields of psychology, behavioural studies, E-B studies, architecture and other fields have tried to define and explain the emotional impacts space has over a person. These studies show that different spaces evoke different emotions, yet it is still hard to tell exactly how architecture induces them.

### **Exploring Our Reaction to Different Geometries of Spaces**

Physical space is neutral and public: in this space, all my percepts are in my head, even the most distant star as I see it. Physical and perceptual space have relations, but they are not identical and failure to grasp the difference between them is a potent source of confusion.
