

religion in the emergence pdf

In philosophy, systems theory, science, and art, emergence is the condition of an entity having properties its parts do not have, due to interactions among the parts.. Emergence plays a central role in theories of integrative levels and of complex systems. For instance, the phenomenon of life as studied in biology is an emergent property of chemistry, and psychological phenomena emerge from the ...

End Notes. 1 Of course, as Marxist writers have stressed so heavily, those who commit themselves to a particular ideology are likely to be those in the community who perceive that if it is organised in those ways they will benefit. However, commonly, they do not simply cynically support an ideology out of self-interest; rather, they believe that only when life is organised in those ways will ...
