

### **report of the experiment pdf**

tried to make a faithful account of our experiment, told primarily from the vantage point of the prison superintendent and principal investigator. We have heightened the dramatic impact by adding photos and sounds from the 'real world,' real prisons, real concentration camps and military installations.

The report should not be a big production. It should not take hours to write. The objective is to write down the significant details of the experiment, the analysis of the experimental data. A few neatly written pages, including your data sheets will suffice for most experiments. Hopefully the sample lab report that follows will help you. Note: 1.

Experiment 3 Introduction to Density INTRODUCTION The purpose of this experiment is to understand the meaning and significance of the density of a substance. Density is a basic physical property of a homogeneous substance; it is an intensive property, which means it depends only on the substance's composition and does not vary with size or amount.
