COMMUNICATION FOR RURAL DEVELOPMENT Guidelines for planning and project formulation  
iv  
ACKNOWLEDGEMENTS This document is part of a series of Communication for Development (ComDev) resources produced by the FAO Office for Partnerships, Advocacy and Capacity Development (OPC).

### **COMMUNICATION FOR RURAL DEVELOPMENT**

Sustainable development is the organizing principle for meeting human development goals while at the same time sustaining the ability of natural systems to provide the natural resources and ecosystem services upon which the economy and society depend. The desired result is a state of society where living conditions and resource use continue to meet human needs without undermining the integrity ...

The competition was established to give recognition to the valuable and important contribution of the agri worker towards the sustainability and growth of agriculture in South Africa.

### **Rural Development | Agriculture**

Enhancing rural development and livelihoods. We work directly with over 700 000 farmers and some five million are in our supply chain. To help secure a long-term supply of high-quality raw materials for our foods and beverages, we need to understand where and how our ingredients are produced, support the farmers who supply us and drive rural development.

### **Our areas of impact and commitment | Nestlé® Global**

In many developing countries, food security and rural development are ongoing challenges. Most poor people in the world live in rural regions.

### **Rural development - Startseite**

Sustainability is the process of maintaining change in a balanced fashion, in which the exploitation of resources, the direction of investments, the orientation of technological development and institutional change are all in harmony and enhance both current and future potential to meet human needs and aspirations. For many in the field, sustainability is defined through the following ...
