characteristic styles are developed and fairly well set early in life, i.e., approximately eight years of age. Examples of adult models in solving conflict, making decisions, child rearing practices, and values toward

#### Early Recollections: An Adlerian Technique With Older People

Early recollections are stories of single, specific incidents in childhood which the individual is able to reconstitute in present experience as mental images or as focused sensory memories. They are understood dynamically; that is, the act of recollecting and remembering is a present activity, the historical validity of which is irrelevant to ...

As a greying son of the Old Grey Mother, I wait with eager anticipation each year for the latest copy of the Magazine – a huge document nowadays, compared to what it was in my day when I was Editor. One feature which interests me nowadays is Norman ' article about life at RSD forty, fifty, or even sixty years ago – I remember
