Animal euthanasia (euthanasia from Greek: ἑὐθάνατος, ἑὐθάνησις; "good death") is the act of putting an animal to death or allowing it to die by withholding extreme medical measures. Reasons for euthanasia include incurable (and especially painful) conditions or diseases, lack of resources to continue supporting the animal, or laboratory test procedures.

Animal euthanasia - Wikipedia

FOREWORD. Disability law is an area of law that overlaps with many other areas of law â€” including employment law, administrative law, elder law, consumer law, construction law, insurance law, school law, health law, social security law, and civil rights law.

The ADA National Network Disability Law Handbook | ADA

The phases of clinical research are the steps in which scientists do experiments with a health intervention in an attempt to find enough evidence for a process which would be useful as a medical treatment. In the case of pharmaceutical study, the phases start with drug design and drug discovery then proceed on to animal testing. If this is successful, they begin the clinical phase of development ...
